## EDUCATION

### United States International University

Nairobi, Kenya

BS in Applied Computer Technology, Mobile Computing and Distributed Systems

Graduation Date: 2023

- Currently enrolled at USIU-Africa in my final year concentrating in Mobile Computing and Distributed Systems.

## WORK EXPERIENCE

### CloudFactory Kenya

Cloudworker

May 2018 – September 2018

- Generated reports on Excel to conduct analysis for various and varying pieces of content and identified different niches to optimize reach and growth.
- Collaborated with workers in India to identify talent for Universities in America in partnership with Hudl while meeting KPI's given by my superiors.
- Provided cleaned and summarized data to co-workers to help increase performance speeds of the entire team and increase quality of output.

### Grab n Go Supermarkets

Intern

October 2017 - December 2017

- Monitored security systems put in place to reduce pilferage of goods and was able to reduce this by almost 10%
- Participated in inventory input, planning and auditing while assisting customer service associates and reported all discrepancies to management.
- Developed and assisted with methods to deal with loss prevention and control of goods.

### Samchi Credit

Intern

April 2015 – May 2015

- Managed complete data entry of customer records and carried out updates to deliver 100% accuracy.
- Executed 5+ banking tasks and worked with government agencies to obtain relevant information.
- Fulfilled general duties such as preparing and verifying customer data and information including carrying out research.

## EXTRACURRICULAR AND ACADEMIC ACTIVITIES

### Goldman Sachs Virtual Experience Program Participant (2022)

Participated in the open access Goldman Sachs Virtual Experience Program with Forage.

Tasks completed include:
